# Meeting Minutes

PROJECT: CirculEC

Date: 08 April 2025

## Event Report

### Summary of the event

Monthly meeting of the working group on the results of recent events. Report on the project implementation plan, exchange of views, comments on updates and current results. Discussion of the implementation process of dissemination tasks within scheduled plan.

## Table of content

<b>Event</b>		<b>Report</b>
.....1	<b>Summary</b>	<b>of the event</b>
.....2		<b>2</b>
<b>Attendants</b>

## ATTENDANTS

No.	Partner No.	Organisation	Full name	Role
1	P9	KarUK	Galiya Gimranova	Manager
2	P9	KarUK	Oxana Bezler	Manager
3	P9	KarUK	Karina Nevmatullina	Teacher/Researcher
4	P9	KarUK	Yevgeniya Puntus	Teacher/Researcher
5	P9	KarUK	Svetlana Glazunova	Administrative
6	P9	KarUK	Zariya Aitova	Administrative

## Internal communication: International trainings

Working group has discussed the key activities and outcomes of the trainings that have been held in Italy, Germany and Spain. All trainings provided participants with valuable practical skills and a solid theoretical foundation on circular economy.

Participants gained:

- a clear understanding of core circular economy principles;
- insights into how these principles are applied in different contexts (education, entrepreneurship, urban development);
- exposure to real-life examples through site visits and hands-on activities.

## Methodological Approach

The training sessions were designed using a variety of interactive and experiential learning methods, such as:

- Workshops: Encouraging problem-solving and innovation.
- Case studies: Providing real-world scenarios for analysis.
- Group reflections: Promoting critical thinking and synthesis of learning.

Participants of the training emphasized the value of cross-cultural exchange and expressed willingness to integrate the circular economy concepts into educational materials.

## Discussion of upcoming project tasks

All projects participants have to fill in the table “List of discipline selection CA” due to 11th of April, including the following information: name of the educational program, level of study, language of instruction, deadlines.

By April 18, team members have to submit a draft handbook.

Team members responsible for LL courses have to share the proposed courses via University Resource Center by April 25.

## Conclusion

International exchange proved to be an effective tool for knowledge transfer and motivation to implement sustainability principles. Adapting materials to local needs is a crucial step for successful implementation. The team remains committed to continuing the ongoing project work.
